

Can you make our Global Research Lab in India a Centre of Excellence?

Nepa is looking to enhance our Research and Analytics production unit in India into a full-fledged Centre of Excellence where data is gathered, analysed, reported, presented, stored and, in some cases, automated with the highest quality. You will be a team motivator, a trainer and a leader as well as responsible for both operational and intellectual qualities.

As our new Director of the Global Research Lab Unit in India

You will lead, inspire and motivate a young team of 50 analysts and researchers. We are looking for an individual with a creative and entrepreneurial spirit who can contribute to the company's overseas growth aspirations. The role requires experience in off-shoring, being able to work with our global offices on projects, develop systems and processes with expertise in quantitative research and analytics methodologies. Experience in setting up an off-shore production unit and experience in working in the U.S. or in European markets is desirable.

You will ensure that the team produces high quality data and analysis in the most efficient way. As Director of the Global Research Lab you have the ultimate responsibility for the data and reports delivered by your unit and enhancement of the same through process, systems and training.

A few more things

- You have proven communication skills and excellent presentation skills.
- You combine a strong doer mentality with a high level of quality and service.
- You thrive in a dynamic environment with a high growth rate.
- You work hard to achieve goals while being humble, unpretentious and team-oriented as you truly believe in the power of collaboration.
- You are fluent in English, both in writing and speech.

Nepa help companies to accelerate their business performance by becoming customer centric at their fingertips. We help you bridge the gap between insight and action to facilitate a customer centric decision making. By merging behavioural data with customer feedback data, our clients turn the voice and the footprints of the consumer into financial KPI:s and provide it to the right stakeholder in real-time.

Headquartered in Stockholm, Sweden with local presence in Denmark, Finland, UK, US, India, Norway, Singapore, and China.
