

Help us build a new Procurement Department!

Nepa is growing fast and needs a centralised procurement department handling our purchase of data. We are looking for a figure loving and people-centric leader that can help us create an efficient and cost saving unit serving our worldwide organization. You will join our office in Mumbai and report to the Global Head of Data Procurement in Sweden.

As our Head of the new Global Data Procurement Team

You will develop, lead and execute procurement strategies and daily procurement work together with the Global Head of Data Procurement (situated in Sweden) you will build a team of procurement analysts during 2017. Along with supplier negotiations and reporting key functional metrics, the team will develop and lead best practice in Nepa's data purchase. The team will also take full responsibility to educate both Indian and international colleagues! You will be responsible for reducing the data costs and for the speed at which delivery of procurement support is managed.

We are looking for a powerful synergy between solid leadership, a passionate drive to develop yourself and your team, and a structured mind that can thrive in a rapid and constantly growing environment.

A few more things

- You have a degree in engineering or business with a diploma in supply chain management and (6 to 10 years) of relevant work experience in procurement along with experience of a management role
- You have excellent oral and written communication skills in English
- You are structured, highly-driven and can work independently
- You have a knack for negotiation and you like to maintain a positive working relationship with others
- You have excellent knowledge in Excel and good knowledge in other MS Office programs
- You share our core values (Passion, Innovation and Cooperation)
- You work hard to achieve goals while being humble and unpretentious

Nepa help companies to accelerate their business performance by becoming customer centric at their fingertips. We help you bridge the gap between insight and action to facilitate a customer centric decision making. By merging behavioural data with customer feedback data, our clients turn the voice and the footprints of the consumer into financial KPI:s and provide it to the right stakeholder in real-time.

Headquartered in Stockholm, Sweden with local presence in Denmark, Finland, UK, US, India, Norway, Singapore, and China.
