

Want to help some of the biggest brands within fast-moving consumer goods to understand their consumers?

We are looking for an awesome individual to join our fast growing team as a Project Manager.

Last year our team brought in over 10 new clients and tripled its business

The FMCG (fast-moving consumer goods) team at Nepa is growing fast and our offering has clearly landed well among many of the biggest FMCG clients in Sweden. We help our clients to understand how consumption is changing and how they can be the forerunners in this rapidly changing industry. You will collaborate with colleagues from all of Nepa's areas of expertise; IT, Consulting and Research. You will support Senior Account Managers at Nepa in their client projects and also be directly responsible of some of the team's smaller client accounts.

You are never alone, but we expect you to be independent

We are looking for a highly driven, pragmatic and structured individual, capable of connecting well with team members from both Nepa and the client. You will be expected to define and solve problems that you haven't encountered before and implement solutions in a client context on a daily basis. We believe that you have worked 2-3 years in client projects that have required an analytical mindset.

A few more things

- You have a degree within business, economics, engineering or equivalent.
- You are fluent in Swedish and English, both in writing and speech.
- You share our core values (Passion, Innovation and Cooperation).
- You take pride in delivering high level of services. We are known for that.
- You work hard to achieve goals while being humble and unpretentious.

Nepa help companies to accelerate their business performance by becoming customer centric at their fingertips. We help you bridge the gap between insight and action to facilitate a customer centric decision making. By merging behavioural data with customer feedback data, our clients turn the voice and the footprints of the consumer into financial KPI:s and provide it to the right stakeholder in real-time

Headquartered in Stockholm, Sweden with local presence in Denmark, Finland, UK, US, India, Norway, Singapore, and China.
