IMPORTANT EVENTS

DURING THE PERIOD

- The AGM on May 19th elected Dan Foreman and Anne Årneby as new members to Nepa's board of directors. The previous board members P-O Westerlund and Martin Burkhalter had declined re-election.
- Lena Landahl was appointed as new Head of HR.
- Jack Suliman was recruited as new Chief Information Officer (CIO).

AFTER THE PERIOD ENDED

- Ferry Wolswinkel was recruited to the newly established role Chief Revenue Officer (CRO) and starts on the 3rd of October.

A WORD FROM OUR CEO

Nepa's net sales increased by 10.2 percent or 7.9 percent currency adjusted in the second quarter compared to the corresponding quarter last year, despite increased uncertainty in the world around us. Our customers' willingness to invest remained good in general in most of our markets. In Finland, we geared up our sales efforts to meet a more hesitant attitude among many of the customers who have market exposure to Eastern Europe and have been affected by the war in Ukraine. The share of recurring revenue continues to be at a high level of 65.4 percent in Q2, which is in line with our targets.

Gross profit increased by 9.3 percent to SEK 67.0 million (61.3) compared to the second quarter last year. The gross margin decreased 0.6 percentage points to 77.5 percent (78.1). Operating profit (EBIT) amounted to SEK 9.6 million (11.7) while the EBIT margin was 11.1 percent (14.9). Profit after tax amounted to SEK 9.0 million (10.7), corresponding to earnings per share of SEK 1.14 (1.35).

Our investments for the future affected costs and thus our margins during the quarter. Among other things, we increased our sales and marketing investments. Of Other external costs totalling SEK 12.9 million, approximately SEK 2.2 million was of a more temporary nature for, among other things, system upgrades. Total Personnel costs increased by 18.2% to SEK 48.9 million, of which SEK 6.4 million are attributable to investments in internally generated intangible assets. We have for example invested in the development of a proprietary platform and digital tools. Adjusting for these, our Operational personnel costs increased by 8.1%, including provisions for an incentive program, the final outcome of which depends on the result for the full year 2022.

On the revenue side we gradually introduced price adjustments in both Q1 and Q2 to compensate for increased costs. The price adjustments will take effect gradually as our long-term customer agreements are renewed. We continue our growth efforts by strengthening management and sales capacity, including the recruitment of a Chief Revenue Officer (CRO).

Cash flow from operating activities amounted to SEK 7.4 million for the quarter and SEK 18.0 million for the first half of the year. We maintain a strong financial position with net cash of SEK 79.6 million at the end of the period.

Strengthened position

I am pleased to announce that during the quarter we completed the transition of our business, the legacy clean-up, as planned. As we have previously communicated, we have taken measures for increased internal efficiency and a more streamlined product range to ensure a stable high proportion of recurring revenue, mainly from tracking-based services. We are now focusing on further strengthening profitability and growth.

Outlook

It is gratifying to once again be able to report record sales and gross profit levels, but it is not something we are satisfied with. We can grow both faster and with higher scalability, which Nepa will prove when we now take the next step in our strategic plan further described in the Q1 report.

We are on the right track and continue to expect that we will start to see the effects of our investments by the end of the current year. At the same time, it is important to emphasize that we have a tight cost control and can pull the brakes in case of a deteriorating market climate, however this is not something we see a need for now. Although our investments are pressuring our margins this year, we are convinced that they will create value going forward. Nepa enters the expansion phase with a scalable and automated platform, a strong track record among our customers, and a clear strategy for the future.

DEVELOPMENT OF THE GROUP

REVENUES

Net sales increased in the second quarter by 10.2 percent to KSEK 86,505 (78,506), and 7.9 percent currency adjusted. Gross profit increased by 9.3 percent to KSEK 67,007 (61,291), and 6.5 percent currency adjusted.

For the first half year, net sales increased by 10.9 percent to KSEK 166,382 (150,064), and 8.8 percent currency adjusted. Gross profit increased by 12.2 percent to KSEK 129,134 (115,107), and 9.5 percent currency adjusted.

The strongest sales growth during the first half year was in Marketing Optimization (MO). It was primarily the result of strong growth of one of our products MO Brand Tracker.

In absolute numbers, Sweden showed the highest growth, increasing sales by MSEK 7.8 equivalent to 8 percent. That is also mainly due to our product MO Brand Tracker.

Detailed information about segments is found in note 2 on page 11.

EARNINGS

The group's EBIT amounted in the second quarter to KSEK 9,612 (11,693) and earnings after tax amounted to KSEK 8,982 (10,655).

For the first half year, the group's EBIT amounted to KSEK 18,488 (18,227) and earnings after tax amounted to KSEK 16,878 (17,966).

Note 2: Segment reporting

Nepa's business can be divided into three types of segments; either depending on what the revenue model looks like (revenue type), which solution the revenue stems from, or which country the sales originated from.

In revenue type, we separate projects already sold, either through subscriptions or regular bulk purchases (recurring) and more project-based revenues (ad hoc).

Sales are also split according to the solution used. Nepa's solutions are Marketing Optimization (MO), Customer Experience (CX), Innovation Acceleration (IA) or Other revenues.

Finally, revenue is split by country.

REVENUE TYPE (MSEK)	Jan-Jun 2022	Share	Growth	Jan-Jun 2021	Share

The highest gross profit growth in absolute numbers was in Sweden (5.5 MSEK) and UK (4.7 MSEK). The highest percentual gross profit growth was in US (253%) and India (43%). Our ambition is to create profitable growth on all markets, where Sweden, Finland and UK are key focus markets.

THE BUSINESS

VISION

To become the world leading data-to-growth company.

The digital transformation of our society is pushing companies to become more customer centric. The need to listen to and to understand customers has never been more important for business success. Through innovative solutions and software, Nepa facilitates customer-oriented decision making in all parts of Nepa's clients' organizations.

BUSINESS CONCEPT

Nepa's business concept is to help companies become more customer oriented, by bringing the voice of the consumer into companies' business development and daily decision-making. Nepa combines consumer feedback data with actual behaviour data in order to transform traditional insights into financially quantifiable actions.

BUSINESS MODEL

Nepa is a ground-breaking growth company within the research industry that offers innovative solutions and software for delivering actionable insights to clients. Nepa has developed automated processes for

continuous data gathering, data analysis and the distribution of actionable insights.

Nepa's sales strategy entails solving client specific business challenges by utilizing proprietary ready-made and scalable analytics modules that support cost effective customization.

Nepa's solutions are mainly sold on a subscription basis of at least 12 months. More than 60 percent of the revenues stem from subscriptions. In addition to that, approximately 60 percent of the other revenues come from these subscription clients.

Other revenues stem from solving client specific business challenges, always with the ambition to create a long-term subscription business model and/or to develop highly scalable products that can be applied to other clients and in other industry verticals.

The proprietary platform Consumer Science Platform® is sold as a combination of:

1. A platform license for managing customer feedback with an interface that automatically enriches clients' current IT infrastructure with behaviour data.
2. Standardized products – Consumer Science Platform® Applications Suite.
3. Solving client specific business challenges.

EVENTS AFTER THE END OF THE QUARTER

Ferry Wolswinkel was recruited to the newly established role Chief Revenue Officer (CRO) and starts on the 3rd of October.
